50	The Lost Society	Wait A Minute	Lost Society

The independent labels are the backbone of the music industry. It's very disappointing that in New York City, Major Radio Stations do not show any respect to these labels with regular rotation. It's our hope that: 1 - the readers working at the major labels consider these independent labels for potential deals; 2 - Program Directors will add the tunes to their playlists; 3 - DJ's will add the tunes into their format and chart titles on their weekly playlists. To receive copies of a tune mentioned or to make contact with one of the labels listed, e-mail us and we will assist you!
